Relatives and Friends Fostering Together

RAFFT is the new network of community members focused on helping and supporting our Foster Families.

RAFFT gives those foster families the support they need whether it is supplying time, gifts, skills, or any number of other supports.

Be a Friend and help out in whatever way you can. Some people are interested in helping in one time events, while others can help out by offering an hour or two a week.

The **RAFFT** network also welcomes corporate Friends that can help with offering employee time, goods, a bit of warehouse space or perhaps tickets to entertainment events to help the Foster Families and their charges by relieving some of the stresses of day-to-day life.

Join the network and offer whatever you can! If you can help with organizing an event or have some time or other donations you can offer ...
